PROFILE

- Front-end developer with **1.5+** years of experience working with clients worldwide directly and developing interactive user interfaces (UIs) using HTML, CSS, JavaScript, and ReactJS
- My typical duties as a front-end developer include deciphering UI/UX wireframes, translating UX concepts into code, developing new user features, testing the functionality of **web applications.**

PROJECTS

Klooma Web, https://app.klooma.com/ 🔗

01/2022 – present

- Klooma is a **social networking** site, online photo-sharing application, and video streaming service.
- We have established goals and shared **deadlines** as a team to finish projects on schedule.
- Making **reusable** programs, **optimizing** page load times, and choosing the structure and style of the **web pages** were used to build this website.
- I utilized HTML, CSS, and **React Js** to create this mobile-first website.

Sumegoo, https://sumegoo.se/Sumegoo/ 🔗

02/2022 – present

- Sumegoo is an online job search tool that offers the ability to identify the most qualified candidate.
- Working in a team, I made sure that every **element** and choice of **typography** on this complex website made it entirely responsive.
- The difficult aspect was integrating various **APIs** for one module, but we succeeded with the support of React Js's effective **state management**.

Benzene Web,
https://benzene-react.herokuapp.com/ 🔗

09/2021 – 02/2022

- A method for **managing** internet sales is called Benzene.
- I created features with multiple uses, such as managing accounts, medications, personnel, and sales records.
- React Js, HTML, CSS, and Material UI were used during development.

PROFESSIONAL EXPERIENCE

Frontend Developer (React),
Kmphitech LLP 🔗

08/2021 – present | Surat, India

- My first **professional** step, the Kmphitech, enables me to work with programmers, **communicate** with, and engage with clients from around the world.
- **AXIOS**-based React Js API integration.
- Creating excellent ReactJs applications.
- Creating and putting into practice tested, **scalable** programming.
- Find and correct code **errors**.
- Javascript, React, and CSS preprocessors like **SASS** development experience

Frontend Developer (Intern),
Suven Consultants & Technology Pvt. Ltd. 🔗

02/2021 – 03/2021 | Mumbai, India

- I finished my first online **internship** at Suven during COVID paramedic.
- Increase the performance and **scalability** of the application.
- Participate in **teamwork** with other members and key stakeholders.

EDUCATION

B.E. in IT engineering, KJIT 🔗

08/2017 – 05/2021 | Vadodara, India | GPA 3.56/4

12th - Science, Shree Sandipani Vidhya Sankul

03/2015 – 03/2017 | Dhoraji, India

SKILLS

React Js *(Material-UI)* │ **JavaScript** *(jQuery)*

HTML5 │ **CSS3** *(sass,bootstrap)* │ **GitHub**
